

► Nessler tube

1 | Endo Glassware offers this model of Nessler tube used for colour determination of solutions by comparing with standard solutions or by the use of a colorimeter.

2 | The flat bottom transmits undistorted light and the tube also presents two marks at 50 and 100 ml, calibrated at 20° C

Code	Diameter	Length	Capacity
BGV003	27 mm	210 mm	50/100 mL
