

Internal Organs Sheet

Code QBB005, QBB023

Heart

Code QBB005

- The model allows for the observation of the different parts that make up this organ, including arteries, capillary blood vessels, venules, veins, atria, and ventricles.
- It consists of three pieces: the superior vena cava, the aorta and pulmonary arteries, and the heart, which can be opened to observe the ventricles and atria.
- Made of PVC.
