

## Pen-type pH meter

### Code KDB003

- These portable pH meters are specially designed for use in swimming pools, fish farms, water treatment, agriculture and any application requiring fast, accurate, on-site pH measurement.
- Measurements are made by means of a pH electrode incorporated in the instrument and are displayed on a digital display. To ensure accurate pH determinations they can be easily calibrated at two points.

## Technical specifications

- Buttons for:
  - Power ON/OFF
  - CAL button for calibration
- Includes carrying case, manual and 3 sachets of pH 4.01, 6.86 and 9.18 pH buffer solutions.
- Calibration of acidic or basic pH range.

<b>Code</b>	KDB003
<b>Display</b>	LCD
<b>Probe type</b>	Precision glass bulb electrode
<b>Range</b>	0.00 – 14.00 pH
<b>Resolution</b>	0.01 pH
<b>Accuracy</b>	± 0.05 pH
<b>Power supply</b>	2 x 1.5V button cell batteries type LR44 <i>(included)</i>
<b>Dimensions</b>	155 x 29 x 16 mm.
