Re: FDA compliance status of Tygon® A-60-F for food contact application

Dear Customers:

Tygon® A-60-F is manufactured with components that comply with applicable FDA food additive regulations including

21 CFR Part 177.2600 Rubber articles intended for repeated use

when the product is for repeated use in contact with foods of types: I, II, IV-B, VI (up to 15% alcohol), VII-B under condition of use: A through G as described in Table 1 and 2 of 21 CFR 176.170(c).

<http://www.fda.gov/Food/IngredientsPackagingLabeling/PackagingFCS/FoodTypesConditionsofUse/ucm109358.htm>

The extraction testing has been performed on the finished form according to 21 CFR Part 177.2600(e) and meet the specifications.

We recommend our customers to thoroughly clean the product prior to their first use in contact with food.

Please note that Saint-Gobain Performance Plastics Corporation does not warrant this product for any other applications. It is the responsibility of the user to conduct tests (e.g., sensory test) that are deemed necessary to determine the suitability for the intended use.
